SORPRESA POWERLED

anti black-out

It does not leave you in the darkness!

- Same application as a standard GU10
- High luminous efficiency: up to 300lm
- Opal diffuser for an excellent light diffusion
- 85% energy saving thanks to LED technology
- Energy efficiency class A+
- Available in two different color temperatures
- Aluminium case for professional thermal management

In case of mains power failure

- it lights up automatically only in case of black out
- thanks to its rechargeable battery and its ingenious design the emergency mode lasts up to 2 hours
