

NEW RANGE

GENERAL CHARACTERISTICS

- Equivalent Power** 18, 24 W
- Power supply** 180-265 VAC - 50/60 Hz
- Standard** EN60598-1, EN60598-2-1
- Protection grade** IP44
- Working temp.** -20°C ÷ +40°C
- Mounting** ceiling, wall
- Frame colour** white
- Housing** Self-extinguishing UV stabilized polycarbonate
- Diffuser** Self-extinguishing UV stabilized polycarbonate, opal
- Driver** Integrated, electronic

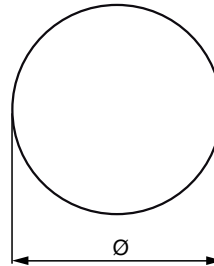

Full moon

Wall and ceiling LED luminaire

Ceiling luminaire suitable for ceiling or wall installation where strong and diffused lighting is required. The SENSOR and ANTI BLACK-OUT versions have been designed specifically for the lighting of stairs, interior corridors in shops, malls, hotels and restaurants. The SENSOR version is equipped with a microwave sensor capable of detecting the passage of people and automatically turning on. The ANTI BLACK-OUT version integrates an inverter and a battery to ensure 1h lighting autonomy in the event of a blackout.

The luminaire is equipped with high-efficiency LEDs whose positioning on the reflector has been designed to obtain a wide beam with high luminous efficiency.

ANTI BLACK-OUT
